NOTICE OF WARNING

Establishment Number: 83240-KS-001

Location: Kansas City, KS & Olathe, KS

Dear Mr. Patel:

This Notice of Warning is issued pursuant to Section 7(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, and notifies you that your company has violated Section 12(a)(2)(L) of FIFRA by failing to submit an annual pesticide production report to the U.S. Environmental Protection Agency. Pursuant to Title 40 of the Code of Federal Regulations § 167.85(d), annual reports for pesticide-producing and device-producing establishments must be submitted for the previous year by March 1 of each year, even if no pesticide products were produced during that reporting year.

The EPA may initiate civil penalty proceedings and seek penalties up to the statutory maximum of \$19,057 for subsequent FIFRA Section 7(c) violations.

To conclude this matter, please submit your 2014 and 2016 annual pesticide reports, EPA Form 3540-16, within 30 days of receipt of this Notice to ensure compliance with FIFRA. Failure to submit your annual pesticide production report within the prescribed deadline could result in further action, including termination of your establishment number and assessment of civil penalties as described above. EPA Form 3540-16 can be obtained from the EPA website at: <https://www.epa.gov/compliance/epa-form-3540-16-pesticide-report-pesticide-producing-and-device-producing-establishments>, or by contacting Delbert Kelley at (913) 551-7371, or kelley.delbert@epa.gov.
